MDAA RECOVERY

Multi-Drug Addiction & Alcoholism

STARTUP FUNDING REQUEST

MDAA Recovery is a welcoming, peer-led recovery community for everyone affected by drug addiction and alcoholism. We provide peer support through meetings, encouragement, help navigating treatment resources, and connections to recovery services. We support multiple pathways to recovery, including properly supervised medication-assisted treatment (MAT).

What We Are Building

MDAA is in its startup stage. Our immediate goal is to maintain a professional public presence, secure affordable meeting space, build relationships with treatment and detox providers, and prepare peer-led recovery meetings and treatment-resource navigation for the community.

Initial Funding Need

Startup Item	Estimated Cost	Purpose
Texas assumed-name filing (if applicable)	$25	Register the operating name
Website, domain & digital setup	$350	Support domain, hosting, production, and launch costs
Meeting room / first-month support	$300	Help secure a consistent meeting location
Printing, flyers & basic signage	$150	Community outreach and launch materials
Meeting supplies	$100	Printed materials and basic room supplies
Outreach / startup reserve	$375	Partnership outreach, memberships, newsletters, and unexpected launch costs
INITIAL STARTUP GOAL	**$1,300**	**Enough to begin the launch phase responsibly**

Note: Amounts are planning estimates. The Texas Secretary of State currently lists a $25 filing fee for an assumed-name certificate; other legal/entity filing costs depend on the structure ultimately selected. Website, hosting, room, printing, and outreach costs will vary by provider and location.

How a Church, Business, or Supporter Can Help

- Provide a one-time startup gift toward the $1,300 initial goal.
- Sponsor or donate meeting space for the first several months.
- Sponsor a specific startup expense directly, such as printing, website costs, meeting supplies, or room rental.
- Connect MDAA with treatment providers, community organizations, churches, businesses, or other potential partners.

Our Commitment

MDAA will use startup support for documented launch expenses and community-building activities that directly support the program. Our purpose is to create a welcoming recovery community, connect people with appropriate resources, and build responsible partnerships before the first meeting launches. We are committed to using lived experience and peer-led recovery support to address substance-use harms, including the fentanyl crisis, help save lives, and support families—because addiction affects more than the individual.

We are seeking founding supporters who believe people deserve connection, practical help, and hope in recovery.

A gift of any size can help MDAA move one step closer to opening its first meeting and connecting people with recovery resources.

How to Support MDAA Today

- Contact MDAA for current contribution instructions.
- Ask to sponsor a specific startup expense directly.
- Offer donated or reduced-cost meeting space, printing, supplies, or professional services.
- Become a community partner and help connect MDAA with treatment, recovery, church, business, and public-sector resources.

Important Startup Status

MDAA Recovery is still establishing its legal, banking, and payment-processing structure and intends to pursue nonprofit status as the organization develops. MDAA does not currently represent contributions as tax-deductible. Supporters will receive updated contribution instructions as the organizational structure is established.
